Reviews Insights Competitive Comparison is based on end-user reviews from Capterra. Average ratings and review counts include published reviews within the 12-month trailing year of the publication date. Ratings are collected on 1 to 5 basis and scaled to 20 to 100 for comparative purposes. Reviews Insights Competitive Comparison constitutes the subjective opinion of individual end-user reviews and ratings; they neither represent the views of, nor constitute an endorsement by Capterra, or its affiliates.

Top Construction Management Software

Top Homebuilders Software
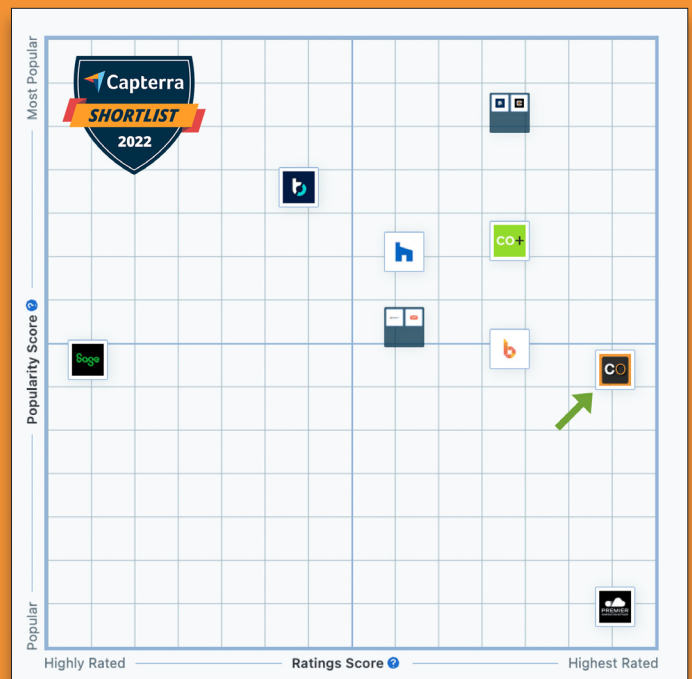

Digital daily logs are simple to create and easy to reference.

Ditch the old-fashioned paper log books, and discover dependable online construction logs. With a variety of flexible log forms & extensive custom options, your team can document jobsite activities, weather conditions, deliveries, delays, and more.

Daily Logging Features:

12 Preloaded Log Forms

Create log entries for work, delays, accidents and more with pre-formatted log forms in Daily Logging.

Logging Reminders

Ensure vital project activity is documented with automated log creation reminders for your team.

Weather Tracking

Location-based weather tracking automatically records key weather metrics for your jobsites.

Attach Files & Photos

Document onsite activity and progress by uploading and storing files and photos in a centralized location.

Reports & Exports

Quickly create professional daily reports from log entries and export hours from work logs.

Mobile Access

Your team can create and review logs in the field with the easy-to-use ConstructionOnline mobile app.

ConstructionOnline™

Advanced Daily Logging Tools:

Schedule-Based Logs

Automatically pull details and assigned resources from project schedules for even easier log creation.

Required Logs

Define what log types must be created each day for your jobs and set reminders for your team.

Day Completion

Project managers can review a day's logs, mark it as complete, and distribute it to stakeholders.
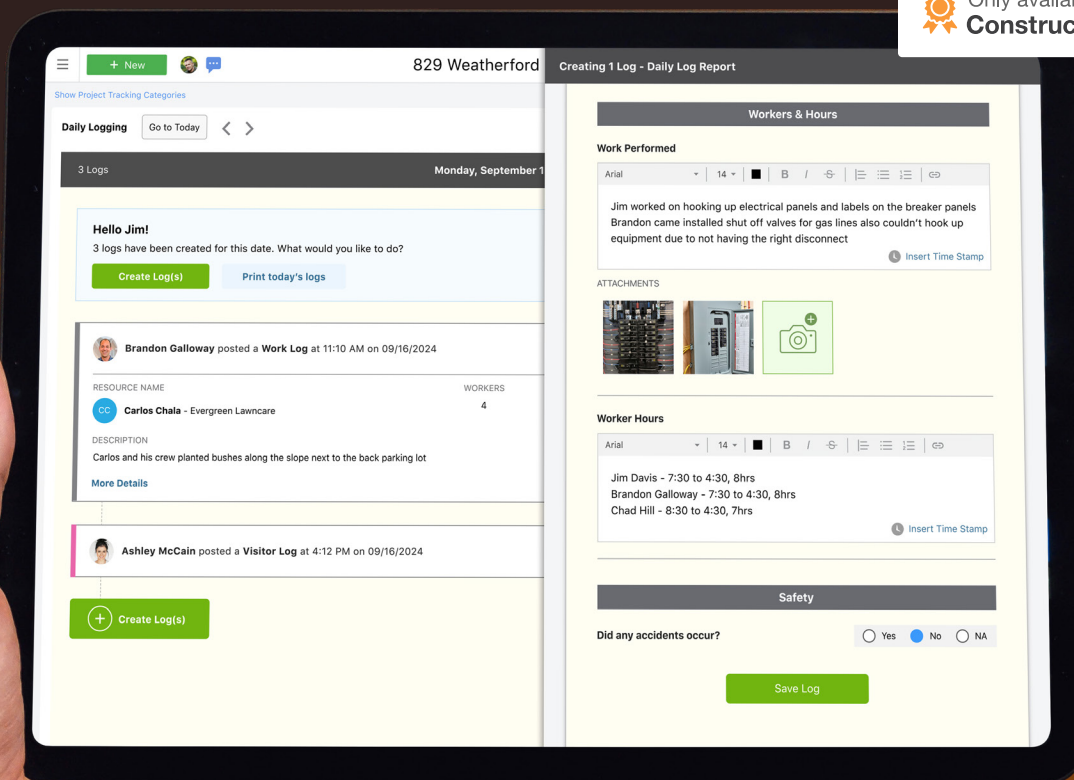

Custom Logs

Define log structures that work best for your company with dynamic custom log templates.

Only available in
ConstructionOnline™

Quickly create, update, and track To Dos from the office or the jobsite.

Take control of essential construction tasks with ConstructionOnline. Dynamic, user-friendly To Dos empower construction teams to efficiently communicate deadlines, assign responsibilities, and define priorities.

To Do List Features:

Company & Project To Dos

Discover the flexibility to create detailed to dos at the company level or for specific projects.

To Do Subtasks

When basic task lists are not enough, you can provide more clarity and detail for your to dos with subtasks.

To Do Reminders

Set automated reminders for assigned resources to ensure work is performed correctly & on time.

Attach Files & Photos

Give your team members more direction and context by attaching photos and files to your to dos.

Mobile Access

Your team can create and review to dos in the field with the easy-to-use ConstructionOnline mobile app.

Great Construction Management Software!

"My favorite feature is being able to access project information anywhere. You can see the schedule, tasks, pictures, and plans. Collaboration can happen quickly."

Aaron J. — Business Development

Always know what items need attention to ensure projects are completed correctly and on time.

ConstructionOnline Punch Lists help you avoid headaches and unexpected delays by identifying and documenting incomplete or unsatisfactory work before the project can be officially completed and handed off.

Punch List Features:

Detailed Punch Lists

Create punch lists to address any deficiencies and errors to ensure jobs are completed on time.

Track Item Issues

Punch list item issues give you an extra level of detail so your team knows exactly what needs to be done.

Organize with Folders

Keep all of your punch lists organized and easily accessible to employees with folders and subfolders.

Photostream™ View

See the visual history of project activity with project photos displayed in a chronological timeline.

Print & Share Punch Lists

Easily share punch lists with your team, either with printed hard copies or through emailed PDFs.

ConstructionOnline™

Get clarity from your data with comprehensive reporting and documents.

Turn your data into clear, comprehensive reports. Share documentation with stakeholders, analyze project activity for predictive insights, and reduce potential legal liability with detailed historical documents.

Connect Field & Office
with ConstructionOnline Mobile.

ConstructionOnline Mobile gives you and your team an always-on connection between field and office. With project logs, to dos, punch lists and more, you can ensure your jobs are being run with real-time data.

We help more than 950,000 pros worldwide surpass their limits everyday.
